

Sound for Life

Questions I have about my child with hearing loss

- What does my child's audiogram tell us about what my child can and cannot hear?
- How often does my child need to have a hearing evaluation?
- I would like specific information about my child's type/degree of hearing loss.

- What are the benefits of full-time hearing aid use?
- How can I figure out problems with my child's hearing aid?
- How do I care for my child's hearing aids?
- How do I keep hearing aids on my child's ears?
- I am interested in organizations that help families purchase hearing aids.

- What strategies can we do at home to help communication with our child?
- How can we learn sign language to communicate with our child?
- Are there listening activities that children can do on the internet?

- What is an FM system and how does it help my child hear in school?
- What technology is available to help my child hear on the telephone?
- What technology is available to help my child listen on a computer, music player, etc.

- I am interested in meeting other families with children with hearing loss.
- I am interested in support groups for children with hearing loss.
- How can we support our child's development of self-concept?
- We are interested in support/information for teens with hearing loss.
