

Immunization History

To be submitted by: April 30, 2021

- Rubeola and Mumps: record of 2 vaccines with first dose on/after age one and second dose at least 28 days after first dose OR Positive IgG titers.
- Rubella: record of one dose of Rubella vaccine OR Positive IgG titer.
- Varicella: record of 2 vaccines with first dose on/after age one and second dose at least 28 days after first dose OR Positive IgG titer.
- Tetanus, Diphtheria and Pertussis: record of a single dose of Tdap vaccine AND a Td-containing vaccine (DTaP, DTP, TD, Tdap) within the last 10 years.
- Tuberculosis: record of one of the following within the last year: Negative TB Test, Negative IGRA, T-Spot or Quantiferon Gold Blood. If you have had a positive test in the past, you will be required to submit a negative chest x-ray taken within the last year.
- Hepatitis B: although your exposure risk to Hepatitis B at UWMC is extremely low, we recommend that you be vaccinated: Please do one of the following:
 - Provide proof of Hepatitis B Vaccine series
 - Provide proof of positive Hepatitis B titer
 - Review the latest CDC educational material on Hepatitis B and sign Hepatitis B Declination form
