

ECHO AUTISM WASHINGTON

ECHO Autism Washington utilizes the innovative Project ECHO (Extension for Community Health Care Outcomes) hub and spokes learning model to telementor clinicians across Washington State. Through case-based learning and presentations, ECHO Autism WA course faculty experts guide practitioners in the diagnosis and management of autism spectrum disorder (ASD). ECHO Autism WA is funded by the Washington State Legislature and UW Leadership Education in Neurodevelopmental and Related Disabilities (LEND) program

LEARNING OBJECTIVES

- **Identify** patients with red flags for autism
- **Diagnose and manage care planning** for patients with autism
