

# Amanda Azalone, B.S., (she/her)

UW LEND traineeship SLP

I am originally from the east coast but moved out to Seattle to complete my master's degree in speech language pathology. This year in LEND, I'm excited by the prospect of engaging in an interdisciplinary cohort, gaining hands-on experience through clinical practice, workshops, and community leadership initiatives within UW LEND, while fostering inclusive practices that positively impact individuals with neurodevelopmental disabilities. Outside of school and work, I enjoy spending time outdoors! I love backcountry skiing in the winter and trail running and biking during other seasons. It's given me the chance to explore the stunning landscapes of Washington State.
