

Victoria Gonzalez-Minter, UW Graduate Social Work Student, Pronouns:  
She/Her/Hers

UW LEND Clinical Training Unit

I am entering my second year as a graduate student of Social Work at UW. My passion lies in helping children and families navigate the healthcare system, ensuring they receive dignity-affirming care, achieve equitable outcomes, and leave UW medicine with access to resources.

I am excited to gain hands-on experience as a clinical social worker at UW LEND. I hope to develop my understanding of patients' unique challenges and tailor care accordingly.

Outside of school and work, I am an avid reader and a cooking enthusiast, and I enjoy the cloudy and rainy days Seattle has to offer.
