

Stefani Joesten, M.Ed. (she/her)

FAMILY LEADERSHIP TRAINEE

- I live in Aberdeen, WA with my husband, our 14-year-old son, a chocolate lab, and a goofy goldendoodle puppy.
- I began my career in my mid-30s after spending time at home parenting our 21-year-old neurodivergent son with high support needs.
- I work at Grays Harbor County Public Health. My job includes coordination of our county's School Medical Autism Review Team (SMART) and Children and Youth with Special Healthcare Needs (CYSHCN) program.
- I get really excited talking about Disneyland and about executive function skills. I love to spend time with my big extended family and working on the endless projects for our 95-year-old home.
- While in LEND, I am looking forward to learning ways to better support families in my rural community and strengthening my leadership skills.
